Black Cat Direct Replacement Teeth and Adapters are manufactured using our HighSpec Alloy steel and heat treated to our precise specifications. Computer design and analysis is employed in the development stages to ensure proper fitment and optimum strength for every part. Efficient processes and "state of the art" foundry practices allow for competitive pricing of quality parts. In house metallurgical staff and testing facilities ensure quality and consistency in all of our finished products. The results are quality wear parts that offer value to the customer every time.
