

# New Bridge Adapter

FROM S-SERIES NOSES TO NEMISYS® TIPS

**A** Isometric view  
**B** Side view  
**C** Inside view  
**D** Rear isometric view

ESCO offers a new bridge adapter to the Nemisys tooth system that fits on S-Series noses using a Sidewinder® pin and is equipped with the Nemisys tip nose. Nemisys points can be attached to the bridge adapter allowing customers to experience some of the benefits of the Nemisys system before a full lip upgrade can be completed.

Customers using the Loadmaster® lip system or EverSharp® lip system can now upgrade existing tooth systems to Nemisys points using the bridge adapters.

## Benefits and Features

### Improved Productivity

- Up to 19% more usable wear metal on points

### Increased Reliability

- Teeth maintain strength throughout the wear cycle

### Reduced Inventory and Maintenance Costs

- Inventory management eased by allowing some machines to upgrade to Nemisys points until an upgrade to a full Nemisys lip system is possible
- Integral hammerless locking devices on points
- No special tools

## BRIDGE ADAPTERS: from S-Series noses to the new Nemisys® tips
