

ESCO now stocks a comprehensive offering of pre-assembled lip packages for most excavator buckets

- All lip assemblies are equipped with ESCO Ultralok adapters and teeth
- All lips are rectangular and can be trimmed to fit buckets produced by most manufacturers
- All lips are made of A514 steel
- Corner adapters are tacked in place to allow easy adjustment to a specific bucket
- Lip assemblies will ship F.O.B Covington, Kentucky

Plate Lip assemblies are available for immediate sale
